

# CURRY LEAF EXTRACT

Our extract from the leaf of *Murraya koenigii* is highly desirable as a natural source of iron.

## Chemical Composition

Curry leaves contain a variety of bioactive compounds, including alkaloids, glycosides, flavonoids, and essential oils.

## Antioxidant Activity

Curry leaves possess antioxidant properties due to the presence of phenolic compounds and flavonoids.

## Potential Health Benefits

Some studies suggest that compounds in curry leaves may help regulate blood sugar levels, improve lipid profiles, and protect against neurotoxicity.

## POSSIBLE BENEFITS

- Anti-Diabetic
- For Oral Health
- Anti-Oxidative Activity
- Anti-Microbial Activity

The distinctive composition of curry leaves, along with their antioxidant, anti-inflammatory, and antimicrobial properties, contribute to their unique flavor, aroma, and potential health benefits.

## Specifications

**Botanical/Scientific name** *Murraya koenigii*

**CAS no.** 876068-15-4

**Description** Brown to Greenish Powder

**Assay** By ICP-OES 3%

Complies with EU food regulations
